

A Great Egret with long, thin legs and a long, sharp beak stands on a small patch of land in a marshy area. The bird has grey and white feathers. In the background, there is a pond with lily pads and dense green vegetation. The text 'What is a Food Chain?' is overlaid on the right side of the image in a large, stylized, yellow-green font with a white outline.

What is a Food Chain?

Who eats the plants that grow by
the pond?

The insect eats the plants.

Who eats the insect that eats the plants that grow by the pond?

The fish eats the insect.

Who eats the fish that eats the
insect that eats the plants that grow
by the pond?

The bird eats the fish.

Children eat fish, too!

Hands-On Activity

Make a Food Chain Have your child cut from old magazines pictures of the parts of a food chain. Have your child connect the pictures with string to show the food chain.

School-Home Connection

Food Chain Have your child draw the animals and plants in a food chain and connect them with arrows. Then have him or her explain the drawing.
